

PRESS RELEASE

Title:

James Fisher NDT Wins A Share of Scottish Water Inspection Framework.

Date 21/8/15

James Fisher NDT are celebrating having been awarded part of a strongly contested Asset Inspection and Testing framework for the whole of Scottish Water for both above ground and underground assets, including Raw Water Infrastructure, Potable Water Infrastructure and Waste Water Infrastructure.

The purpose of this Framework is to enable Scottish Water to assess the condition of a range of assets in order to manage the assessment and scheduling of maintenance works, and give an early indication of any potential failures on existing assets. The framework marks an important milestone in the growth of James Fisher NDT and the reputation they are now acquiring within the utilities market. Patrick Boyle Business Development Manager for the Utilities market said:

“After being initially advertised by Scottish Water we submitted our proposal showing how through our NDT services, group services and innovative techniques that we were working on or developing could assist Scottish Water in with this framework.

Following on from this Scottish Water announced a 6 year +6 +6 one year extension options framework for all inspections and testing of their assets, company -wide through the whole of Scotland, including the Islands. Thanks to our broad range of NDT techniques, both existing and under development, plus the strength and depth of experience within the NDT division and wider James Fisher Nuclear group we were successful in winning a share of this important framework.”

James Fisher NDT is a trading name of James Fisher Nuclear Limited

James Fisher Nuclear Limited is registered in Scotland Number: SC204768 North Meadows, Oldmeldrum, Inverurie, Aberdeenshire AB51 0GQ.

James Fisher Nuclear Limited is a subsidiary of James Fisher and Sons PLC

PRESS RELEASE

Alec Morton, Divisional Director for James Fisher NDT added “We are very pleased with the trust Scottish Water have placed in us and the other suppliers, to take on this exciting project. We are in the process of recruiting new local staff to add to our existing high calibre personnel and have a general manager ready to deliver what will be a high volume and challenging package of inspections works “

The awarding of a share of this framework to James Fisher NDT stands as testament to their commitment to the utilities market; their expertise and experience in critical asset management and their desire to develop innovative solutions to the industry’s problems.

Notes to editors:

JF NDT offers a range of products and services addressing non-destructive testing and non-destructive examination and radiological protection requirements for the aerospace, nuclear, defence, homeland security, chemical, oil and gas, and other industries.
